JAPAN TO INVITE CHINA TO CONFER OVER SHANTUNG.

But with D'Annunzio, is Wilson's Edict.

Steel Strike Boss Amazes Senate.

BULLETINS.
(BY CABLE AND ASSOCIATED PRESS.)
COPENHAGEN, Sept. 25.—American warships loaded from a torpedo-boat destroyer to compel the Italians to evacuate Tran, Dalmatia, according to a dispatch received here from Spalato, a short distance east of Tran. The dispatch adds that the Italians left after the inhabitants fled on them and that Jugo-Slav troops took over the town from the Americans.

SACRAMENTO, Sept. 25.—The main line of the Western States Power Company through Eldorado county is out of commission tonight because of forest fires. Two men had a narrow escape today while fighting the flames near Mokelumne, and were badly scorched. Earl G. Ryan, foreman for the power company, and Joe Leonard, stockman, were caught between the main fire and the backfire, and were compelled to make their way out by plunging through burning brush.

WASHINGTON, Sept. 25.—The Netherlands Legation has received a copy of secret document issued by the Belgian Foreign Office to the Belgian Government. The document creates sentiment for the annexation of the Dutch province of Limburg to Belgium. The document has been printed in the Nieuwe Rotterdamse Courant and its authenticity has been acknowledged by the Belgian government. The Netherlands government, the Legation states, has opposed a formal protest to the document.

WASHINGTON, Sept. 25.—The President has replied to Italy's note for a settlement of the Fiume question. The President refused to consider the proposition, which proposed the city of Fiume be placed under Italian administration and the railways and ports be international.

WASHINGTON, Sept. 25.—The President threatened that unless D'Annunzio left Fiume and it be internationalized, the United States would economically strangle the city.

WASHINGTON, Sept. 25.—The President threatened that unless D'Annunzio left Fiume and it be internationalized, the United States would economically strangle the city.

He Finds Wilson's Theories Have a Kick.

TO RATIFY,
FIRST STEP.

Officials Announce
Japan's Purpose.

Add that China Cannot be
Compelled to Accept Invi-
tation to Talk.

Baron Kondo Announces Nip-
pon is Ready to Compete
for Sea Supremacy.

(BY CABLE AND ASSOCIATED PRESS.)
TOKIO, Sept. 25.—Japan is planning officially to invite China to confer on the Shantung situation after Japan has ratified the peace treaty. This fact was communicated to the correspondent today by officials, who added that Japan naturally could not compel China to accept the invitation.

"Japan," said one official, "is anxious to settle the question of the restoration of Shantung as quickly as possible, but if China declines to negotiate, Japan will be obliged to allow the present conditions as to Shantung to remain unchanged."

SONG FESTIVALS ON
"ARMISTICE" DAY.

(BY A. F. NIGHT WIRE.)
SAN FRANCISCO, Sept. 25.—The people of every community in California are asked to assemble at 11 o'clock on the morning of November 11, anniversary of Armistice Day, and express in song their thanks for ending of the war.

The War Camp Community Service will have charge of the festival, (7 song and will be assisted by the California Federation of Music Clubs.

Gov. Stephens has proclaimed Nov. 11 the official "welcome home" day for soldiers returned from trench and camp.

HILL'S FIRST TOPPER
IS IN HONOR OF KING.

(EXCLUSIVE DISPATCH.)
ST. PAUL, Sept. 25.—Friends of L. W. Hill, president of the Great Northern Railway, believe that he has been trapped and will have to wear a silk hat.

For years Mr. Hill has fought for a democratic form of dress on reception committees and has in some cases refused to wear a top hat. It is believed he will be the guest of Mr. Hill. The King will go to the cathedral to attend mass and will wear high silk hat. Mr. Hill, being the host, will be compelled to wear one or stay away from mass.

The betting today among Mr. Hill's friends was 10 to 1 that he would wear his first silk hat on Sunday, October 12.

Mr. Hill and the King are old friends, the ruler having been in the employ of the Great Northern road about twenty years ago as an engineer.

ACCUSED OF MURDER.
Angeleno Held for Grand Jury's Action at Chicago.

(BY A. F. NIGHT WIRE.)
CHICAGO, Sept. 25.—Lewis G. Palmer, who says Los Angeles is his home, was ordered held to the grand jury on a charge of murder by a coroner's jury today, in connection with the death of Mrs. Louise Brown of Maywood. Mrs. Brown was found by neighbors, murdered in her home in Maywood, two weeks ago.

Palmer, against whom the police have only circumstantial evidence, was released on \$15,000 bond.

SET AIR RECORD FOR MAIL.
NEW YORK, Sept. 25.—A speed record for carrying mail between Cleveland and New York by airplane was established today when the distance of 438 miles was covered in two hours and fifty-seven minutes.

The plane, with 375 pounds of mail, was piloted by John M. Knight.

BOMB EXPLOSION IN SPOKANE BANK

(BY A. F. NIGHT WIRE.)
SPOKANE, Sept. 25.—An explosion in the building of the Old National Bank, sixteen stories in height, late tonight is reported to have blown out windows and to have done other damage. The police suspected a bomb had been thrown from an adjoining building. Investigation showed that all windows in the rear of the bank were shattered. The explosion was heard for several blocks. No reports of casualties were made.

STEEL STRIKE RUN BY BOSSES! WHO KNOW NOTHING OF STEEL.

Handling horsehoes is Fitzpatrick's nearest approach to becoming a steel worker. He never was employed in a steel mill; knows nothing of wages or laboring conditions in a steel plant, except as he picked them up in union meetings during the process of organization. He is by trade a horsehoer.

Not a single member of the strike committee conducting the steel strike is employed in any steel mill. Some "are members of unions having workmen in the mills."

Unionism was forced upon steel workers by systematic agitation, beginning in 1915, because the open shop perished under elimination in other branches of industry. The man did not invite organization.

Although the strike was called ostensibly against the United States Steel Corporation when the strike actually was called, "we struck wherever we were organized, without regard to the name on the door."

The check-off system among the union demands was shown by Fitzpatrick's testimony to be simply a union method of enforcing payment of dues to the unions by which the union is given complete power over the individual who once has accepted a union card. The company would bind itself to enforce extortion of all union dues, even upon the man who desired to escape the union clutch. The check-off system was shown to be the strongest element in forcing a closed shop.

Wages paid union organizers are \$5 a day, with \$5 daily for expenses. Fitzpatrick's salary, he said, was \$75 a week.

MEXICO HELPS GERMANS.

Valuable Mahogany Timber Concession
Handed to Teuton Syndicate.

(EXCLUSIVE DISPATCH.)
MONTEREY (Mex.) Sept. 25.—According to advices received here from the City of Mexico, the government has granted a highly favorable concession to a syndicate of Germans the disposition of the mahogany timber of the States of Campeche and Tabasco and the Territory of Quintana Roo.

In some instances concessions that were held by American and British interests and were forfeited have been taken over by Germans.

It is planned by the concessionaires to do an extensive logging business. In connection with the cutting and exporting of mahogany timber the German interests plan to engage extensively in the chicle industry. The sapote trees, from which the chicle gum is obtained, are scattered all through the timber holdings where the mahogany trees are found. The mahogany and the sapote trees do not grow close together in tropical fashion, but are scattered through the dense growth of other kinds of forest timber.

MEXICAN FACTIONS UNITE.
WASHINGTON, Sept. 25.—Details of Francisco Villa's expected campaign against Carranza reaching Washington are reviving interest in the Mexican revolutionary movements. Villa is keeping his friends in this city advised of his activities. The anti-Carranza here, formerly divided into several camps, are said now to be united and favoring Villa.

A courier arriving today from El Paso brought definite information regarding the uniting of the revolutionary movement in Mexico under Carranza, which is said by some authorities here to indicate the influence of Gen. Felipe Angeles upon the situation in Mexico.

Before leaving the United States, after having served the French government here during the European war, Gen. Angeles told officials that his chief purpose in returning to Mexico, from which he had been exiled by Carranza, was to lead the strongest power in Mexico and unite the various factions there in a supreme effort to overthrow Carranza and restore the Constitution of Mexico. He is recognized by State and War Department officials as an able and patriotic Mexican, and his standing with the French government during the war was high.

Gen. Angeles claims to have succeeded in uniting most of the Mexican revolutionary leaders under Villa. A notable exception is Felix Diaz, with whom Villa has refused to have any dealings. This is at the suggestion of Angeles. The courier arriving here today brought the news that the following revolutionary generals, commanding in the aggregate a considerable body of men and a large amount of money and munitions, have formally agreed to recognize Villa as general-in-chief.

Gen. Banuelos, revolutionary commander of Zacatecas; Gen. Melendez of Oaxaca; Gen. Magana, of Morelos, the successor of Zapata in the leadership of the Morelos Insurgents; Gen. Flores, of Vera Cruz, a member of a wealthy family of that state, and protector of the oil interests in the Tampico region; Gen. Carrera Torres, of San Luis Potosi; Gen. Caballero of Tamaulipas; Gen. Almasan of Nuevo Leon; Gen. Cadillo, whose forces occupy and control parts of San Luis Potosi and Coahuila; and Gen. Gutierrez, who controls practically all the rest of Coahuila.

JUNTA PLAN PROPOSED.
The courier also brought the news that Villa's plan for the civil government of the territory controlled by the revolutionists has been accepted by the leaders who have agreed to join him. This plan is to establish a "Junta de gobierno" composed of a selected group of men from all parts of the country. The names of most of these men have been submitted to each of the leaders and been approved by them. This junta will govern the country as fast as the Villistas gain control and it is expected that the entire republic until elections can be held. It is stated that neither Villa nor Angeles is ambitious to be President.

OREGON'S CAMPAIGN.
It was learned from other sources today that Gen. Oregon, candidate for the Presidency, and the only Democrat to have been elected to the White House, is on his way to Mexico City on a campaign tour of the country. He has timed his arrival on the eve of his campaign, Rafael Zubizar, so as to be in the capital during the absence of President Carranza. Villa's visit to Coahuila, where his wife is ill in a hospital. It is believed that Oregon will ally himself with some members of Congress, which is still in session, from the Carranza cause and from the support of Gen. Pablo Gonzalez, the only other open candidate for the Presidency.

FIGHT IS INTENSE.
The fight between Pablo Gonzalez and Gen. Oregon has reached an intense stage according to advices from Mexico City and it is now regarded as certain that the defeated candidate will undertake a new revolution on the ground that the elections did not express the will of the people. Gonzalez has chosen as his campaign manager, Senator J. S. Bacon.

Villa's position, according to Mexican experts in Washington, will be greatly strengthened by the election of Pablo Gonzalez or Gen. Oregon, who state that Villa would hold the balance of power if either Gonzalez or Oregon should take the field as a revolutionist.

RED REGIMENTS WIPED OUT
(BY CABLE AND ASSOCIATED PRESS.)
LONDON, Sept. 25.—Fierce fighting was in progress throughout the day yesterday in the region of Pskov, southwest of Petrograd, where the Estonians annihilated two Bolshevik regiments, according to Estonian dispatches received here today.

PARIS, Sept. 25.—A rumor was in circulation on the Bourse here today that Nicolai Lenin, the Russian Bolshevik Premier, had been assassinated.

UNIONISM ENFORCED.

Tie-up Engineered
by Non-workers.

Not One Member of Strike
Committee Ever Worked
in Steel Mill.

Congressional Quiz Develops
Startling Facts that Peril
Industry.

(BY A. F. NIGHT WIRE.)
WASHINGTON, Sept. 25.—Appearing as union labor's first witness in the Senate investigation of the steel strike, John Fitzpatrick, of Chicago, chairman of the strikers' committee, declared today that an agreement by the United States Steel Corporation to arbitrate the differences with its employees would result in an immediate end of the walkout, which he said now affects 140,000 men.

Fitzpatrick's statement came after a four-hour recital before the Senate Labor Committee of the efforts to organize the steel workers and of the conditions which led up to the strike. Had E. H. Gary, chairman of the board of the steel corporation, met the workers' committee, the men would not have walked out, Fitzpatrick said, but an agreement to arbitrate would not result in the men returning to work.

Samuel Gompers, president of the American Federation of Labor, and chairman of the first committee formed to organize the steel workers, will be heard by the committee tomorrow. On Saturday William Z. Foster, secretary of the United States Steel Corporation, who has been charged by Representative Cawley, Republican, with propagandizing, will be heard.

Judge Gary is to appear next Wednesday before the steel corporation's side of the controversy.

FITZPATRICK LURID.
Fitzpatrick today painted a lurid picture of conditions in the steel districts of Western Pennsylvania. He declared there was a reign of blood and iron there with deputy sheriffs, paid "gunmen" and Pennsylvania constables as their chief exponents. Murder and assault on steel workers were of every day occurrence in the steel districts, he said. He sketched dramatically the story of the killing of one woman, an organizer of mine workers, which occurred before the steel strike was called.

"Do you feel that the steel companies are responsible for the killing of this woman?" asked Senator Sterling, Republican, South Dakota.

"Yes, I do," Fitzpatrick responded. "I think they had a meeting and decided upon murder."

"Oh, I don't think they passed a motion picture," he said. "If that's what you mean."

Fitzpatrick said organization of the steel industry had been decided upon by the American Federation of Labor because it was a "bad situation in the industry" with the men forced to work long hours at small wages and under bad conditions.

TWELVE DEMANDS.
With the actual calling of the strike, a list of twelve demands had been made upon which the twenty-four unions had combined, Fitzpatrick said. These demands included recognition of collective bargaining, the eight-hour day, reinstatement with pay of all men discharged for union activities and adoption of the "check-off" system by which the companies would collect union dues from the men. Wages were not specifically mentioned.

On his last subject Fitzpatrick had two views. "The industry pays less than paupers get," he said at one point, "but several times later he asserted that money was not the issue."

"The conditions," he declared, "are horrible. The conditions are awful. Their women want more happiness."

Referring to \$40 a day as the wage drawn by highly skilled steel workers, Fitzpatrick said this was "mere pittance for the work they do."

Average wages, he said, were around \$40 an hour. "The \$50,000 men on strike," Fitzpatrick declared, "are going to demand from the United States government justice and justice."

Fitzpatrick was late in arriving from Pittsburgh and hurried to the committee room, which was crowded with Senators. Representatives and others interested. He was accompanied by William H. Rubin, counsel for the steel strikers, who, at the outset of the hearing, asked what assurance had been given by Judge Gary, chairman of the board of the United States Steel Corporation, that

(Continued on Fifth Page.)

Gabriele d'Annunzio, whose seizure and occupation of Fiume—possibly with the foreknowledge of the Italian government—is declared by the President, according to the latest Paris cables, to be contrary to the spirit of the creed of self-determination of peoples, as enunciated by Mr. Wilson. Therefore, the Italian post-soldier must get out and leave the city's control to the Jugo-Slavs. Gen. Badoglio (inset) of the Italian army has been sent to Fiume to handle the extremely delicate situation from the Italian viewpoint, but thus far his efforts to induce d'Annunzio to release his grip on the city have failed.

CAN'T CONFER WITH /
UNIONS, SAYS GARY.

STEEL CORPORATION HEAD REFUSES TO ARBITRATE
MORAL PRINCIPLES.

(BY A. F. NIGHT WIRE.)
NEW YORK, Sept. 25.—After being shown an Associated Press dispatch, quoting John Fitzpatrick, director-general of the steel strike, as saying the walkout would end immediately if the United States Steel Corporation would arbitrate differences, E. H. Gary, director-general of the corporation, declared in a statement tonight, speaking for himself, that he believed the board of directors cannot negotiate or confer with Mr. Fitzpatrick or his associates.

Mr. Gary was shown the dispatch while he was attending a dinner given here today by Baron Kondo, president of the Japan Mail Dispatching Company, and was asked to make some comment. Breaking the silence he has maintained since the beginning of the strike, Mr. Gary wrote a statement while seated at the table and then, calling the newspaper men into the hall, read it to them.

"The board of directors of the United States Steel Corporation are the representatives of nearly 150,000 stockholders, including from 60,000 to 70,000 employees," said the statement. "We are their servants and we are selected to represent and protect their interests and also the interests of all our 250,000 employees, the majority of whom I think are not members of labor unions."

"It is understood Mr. Rathbone will be associated in a new official capacity with the reparations commission, which is set up by the peace treaty to have charge of rehabilitation measures and of the collection of Germany's indemnity."

Under the treaty there would be an American member of the commission, but an amendment pending in the Senate would greatly curtail his power.

Several weeks ago the President asked the approval of the Foreign Relations Committee for selection of an American representative to sit with the commission tentatively while the treaty awaits ratification, but the committee replied that in its opinion there was no authority for making such an appointment.

THIRTY INJURED IN
STREET CAR CRASH.

(BY A. F. NIGHT WIRE.)
SAN FRANCISCO, Sept. 25.—Thirty persons were injured, two seriously and two possibly fatally, in the rear-end collision of two crowded street cars late today. One of the cars got out of control when a short circuit caused the front end to burst to burst into flames, and ran three blocks down a hill, driving a third of the way into the rear of the other car.

Otto Thiem, motorman of the runaway car, was arrested on a charge of battery. According to statements which the police were made by passengers, he jumped from his car when the flames drove him away from the controller.

NARROW ESCAPE FOR FLYERS.
(EXCLUSIVE DISPATCH.)
OAKLAND, Sept. 25.—Mistaking a number of white flags marking the site of the proposed naval base on the Alameda marsh for the designation of an airplane landing station, Col. H. H. Arnold and Second Lieutenant A. A. Goodrich, flying from Red Bluff to the San Francisco Presidio, landed last evening at a narrow escape from death. The dust served to confuse the two men still more than the flags. The propeller of their plane was wrecked and other damage done when the machine struck on its nose. They made the remainder of the journey by ferry and street car.

Local Boards to Decide Red Cross.
(BY A. F. NIGHT WIRE.)
SACRAMENTO, Sept. 25.—The State Board of Education decided today to leave to local authorities the issue of permitting the organization of chapters of Junior Red Cross.

recently advocated before the committee by Dr. Sidney Gulick would increase immigration, Mr. McClatchy said.

The plan, he explained, would permit the entry of 2500 Japanese in 1919, 1920 and 1921; 7500 in 1922; 12,500 in 1923, with a steady increase thereafter.

GULICK PLAN EXPOSED. In forty years from 1922, declared McClatchy, the Japanese population of the United States under the operation of the Gulick plan will be, in round figures, 2,000,000; in eighty years, 10,000,000; in 140 years, 100,000,000.

Forty-seven per cent. of the Seattle hotels are Japanese-owned, Mr. Freeman said, as are 25 per cent. of the groceries, and practically all of the best farming land near Seattle. The Seattle city market is under Japanese control; landrains are being rapidly absorbed and cinema theaters are being bought, Mr. Freeman said.

"That is not all," he added, "and it is typical of conditions in all lines of business."

Great Sacrifice for Cash Only

SIGNs like this mean little to the man without money. But to the person with available cash, they spell Opportunity.

The man with money in the bank has every advantage when it comes to buying. Profitable investments, good values in property, chances to buy into a growing business or to start a paying one himself—these he can grasp because he has ready money.

Systematic saving is the secret of most men's preparation for money-making opportunities. Are you ready for them?

THREE FACTIONS OPPOSE TREATY.

World Peace is Blocked by Many Reactionaries.

American Senators, French Deputies Play Politics.

Italian Hotheads Preventing Calm Discussion.

BY HENRY WALKER. (BY CABLE-REUTERS DISPATCH.)

PARIS, Sept. 25.—Ratification of the German treaty and actually placing the world upon a peace basis are becoming doubtful, with Italy trembling on the verge of revolution and France torn by internal politics.

Under the treaty terms three of the five great powers must ratify to make the treaty effective.

Great Britain alone has done so. The United States is in the throes of a Senate fight and may not ratify before the end of November, according to the best Crillon opinion now.

President Wilson's efforts are in a measure nullified through the turn affairs are taking in France and Italy. The President has been urging the Senate not to hold up world peace by refusing to ratify. But here in Paris one sees the French Chamber of Deputies today trying every dodge and every political trick known in Washington to delay or prevent ratification while they angle for a chance to get Clemenceau's scalp.

Italy had been expected to ratify quickly, but with D'Annunzio's Flume campaign stirring the hot-blooded Latins to the boiling point, the Senate of the republic called, it is admitted at the headquarters of the Italian peace delegation that neither Italy nor Britain will be able to bring the German treaty or any Flume settlement proposed until the danger of open revolution is averted.

Thus Japan remains the only great power which may be expected to ratify soon and they are holding out under the Shantung criticism in the hopes of getting more cards in their hands to trade with the big powers.

Meanwhile Germany is watching the game closely, and Premier Paderewski, of Poland, told the council of five yesterday that 100,000 German soldiers still are under arms.

CLEMENCEAU'S MESSAGE. (BY CABLE AND ASSOCIATED PRESS.)

PARIS, Sept. 25.—Speaking in the Chamber of Deputies today on the German peace treaty, Premier Clemenceau said that if he had any word to send the United States Senate it would be that it hurry the ratification of the treaty.

Alluding to the entry of the United States into the war, the Premier said that France might count upon America in time of peace as well as in war.

Replying to criticisms of the treaty, M. Clemenceau said the League of Nations was not as perfect as President Wilson would have desired, but that he had no word to send the United States Senate it would be that it hurry the ratification of the treaty.

Josef Hofmann---

is universally regarded as one of the world's greatest pianists. Many people feel that Hofmann has no equal. Paderewski is another—Gablilowitch, Harold Bauer, Rudolph Ganz—the list is long, indeed, of great pianists who have contracted to record their playing exclusively for

The Duo-Art, in addition to being the only real reproducing piano, is a wonderful player-piano and a regular piano of exceptional tone and action.

The World-Renowned DUO-ART Reproducing Piano

The Duo-Art offers such wonderful possibilities for entertainment and education at such comparatively small cost—the opportunity of having the world's great artists of the piano at your back and call. It records their playing with absolute accuracy—even to their very finest tone shadings and most intricate technique—actually reflecting their personality. It is made in the Steinway, Steck, Wheelock, Stroud and famous Weber models. Foot blown Duo-Art ranges from \$350 to \$2475—electrically propelled from \$1145 to \$4000. Very liberal terms.

A "Good Night" Massage

—With the famous Owl Theatrical Cold Cream—

Means a Clear Skin in the Morning

That's the secret of many complexions you have admired.

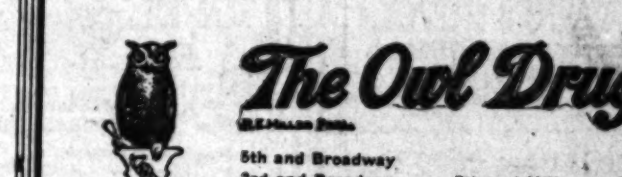

Applied with a gentle massage, this perfect cream thoroughly cleanses the pores. At the same time it soothes and softens the skin. By this simple method thousands of women retain their youth-time complexion.

Owl Theatrical Cold Cream is perfectly pure and, as a result, the last bit is as fresh and sweet as the first you take from the tin.

After a day in the open this bit of attention is doubly necessary. The effects of sun or wind are quickly erased and the burning sensation allayed.

ASK JOHNSON TO ADROP OPPOSITION

Occidental College Faculty Say Ratify at Once in Telegram to Senator.

Stating that the entire faculty of Occidental College favors the immediate ratification of the peace treaty as it stands now Dr. Silas Evans, president of the college, yesterday sent a telegram to Senator Johnson on behalf of the faculty asking him to cease his opposition to its ratification. The telegram read: Senator Hiram Johnson, Washington, D. C. Dear Sir: The entire faculty of Occidental College appeal to you to cease opposition to the treaty of peace and the League of Nations. We believe that the language of the covenant is plain, that interpretative reservations are unnecessary and that reservations and amendments, contrary to its terms, are impossible. We favor the immediate ratification of the instrument as it stands.

The telegram is signed by Dr. Evans and Dr. Elbert E. Chandler, secretary of the college.

RECRUITING RELIEVES SHORTAGE OF SAILORS.

VALLEJO, Sept. 25.—Shortage of men in the Pacific Fleet is expected by naval officials to be relieved by recruiting which has resulted in an enrollment of 2400 in the training station here. Daily arrivals of men average thirty-five.

The steam yacht Venetia, commanded by the governor John D. Spreckels of San Francisco at the outbreak of the war, was returned to him today. The Venetia was the only vessel, as far as is known here, from Mare Island, to be officially credited with the sinking of a submarine. The Venetia bears a star on its smokestack in recognition of its destruction of an undersea boat.

Authority was received at the navy yard today for the erection of an additional radio station, to cost \$110,000.

The supply ship Glacier received orders today to leave Mare Island October 1 for San Pedro with stores for the Pacific Fleet rendezvous there. The Glacier will return here later for repairs.

The Times Second Financial and Market Page

NEW YORK STOCK EXCHANGE PRICES ON LOCAL GRAIN EXCHANGE.

(BY A. P. NIGHT WIRE.)

NEW YORK, Sept. 24.—The steel strike was again the dominating subject of discussion in the financial district today, but the undertone of the stock market suggested confidence in an early relaxation of existing conditions.

Fragmentary advices from steel and iron centers were received with greater interest, but intimations of a possible settlement, pending Federal intervention, looked support in well-informed trade and financial circles.

Steels and the many equipments comprising that class of stocks developed irregular strength, but pools were less active in oils and metals, those issues being supplanted by tobacco and food shares at variable gains.

Metals continued to react on the increased weakness shown by American tinclings, which extended yesterday's loss by an extreme of 3 1/2 points on rumors of poor earnings and probable downward revision of dividend distributions.

With the lower quotations for refined copper.

Dealings in rails were confusing. Canadian Pacific and several other recognized investment shares yielded to moderate pressure, while secondary or low-priced issues were again firm to strong.

Shippings had a brief period of comparative strength and activity but reactions of the last hour, which affected all but the tobacco, motor specialties and sugars, reduced many advances, including United States Steel, which forfeited half of its two-point gain. Sales amounted to 1,050,000 shares.

Call loans held at the one rate, 8 per cent, throughout the session, and time funds ruled at 3 1/2 to 6 with increased buying of commercial paper by interior banks.

The active and strength of Liberty Bonds confirmed reports of a wider demand by banks and investment houses. Foreign bonds also were harder, but the general domestic list was irregular. Sales, par value, aggregated, \$14,500,000. Old United States bonds were unchanged on call.

FINANCIAL AND TRADE REVIEW.

(Continued from Seventh Page.)

draw up oil from the well and if possible induce a free flow. The swab is weighted and dropped to the bottom of the well. As the line tightens in drawing the swab up, the swab expands to fit the casing like the piston in a pump, and converts the casing into a pump cylinder.

The Stock Market.

It was the best day on local 'change in two weeks. The tendency throughout the day was bullish. Prices were stronger. Trading was more active. The psychology of the market was apparent. Early collapse of the steel strike seemed to be taken for granted, and with this feeling was one which assumed that the steel strike would be a temporary interruption of the normal flow of production and that the worst would soon be over.

Union Oil established a new high record when the stock went to 17 1/2. At the close, the market was flooded with orders for large blocks at that figure with little in sight.

The higher it went the greater the demand. The announcement that the director's room, those who predicted a \$200 market a few weeks ago again with their voices to be heard about the room yesterday, and they were listened to with greater respect than ever.

The rise in Union had a good effect all down the line, and with the exception of Associated there was a general advance. Associated sold at 24 1/2. The market was flooded with orders for large blocks at that figure with little in sight.

quality, nor is there any evidence of a return to economy on the part of those who have the money to gratify their desires.

Building Operations.

The Los Angeles building record for September is likely to be considerably above that of August, but the same condition is not general throughout the country where labor disturbances are having their effect. As a result this city may make up some of the ground lost in favor of other places. Last month's building operations in 147 cities showed a total expenditure of \$150,853,223, a gain of 245 per cent over the same month last year.

Food Control.

There is a trend of opinion towards more complete food control in the United States. At a recent convention of dairy, food and drug officials a plan was announced, which contemplates appointments of committees from each association to coordinate and solve various production and distribution problems such as labeling, sanitation, inspection and adulteration. The American Meat Packers' Association advocated Federal inspection of all meat. Several States already compel employment of food factories to undergo rigid and frequent health tests.

World's Largest Cafeteria.

Los Angeles must look to her laurels, for the largest cafeteria in the world is being built by the Westinghouse Company in Pittsburgh for the accommodation of its employees. The building will be 225 by 100 feet and will seat 1800 people. The equipment is to be the latest work in time saving and convenience and will cost the company more than \$150,000. Food is to be served in great variety at actual cost.

Why Bread is High.

Thrashing outfits in Minnesota are getting \$10 an hour and farm labor 65 cents an hour, board and lodging. At this rate farming will be almost as attractive as putting in a steel mill, with the professions left far behind.

Stocking Shortage.

The whole world seems to be short of socks and stockings. Every effort is being made to speed up production and with some success, although labor trouble is still militating against more than a 75 per cent, of possible output. Because of the absence of any surplus stocks upon which to draw, the situation is heavy overhead no reduction in price is anticipated for the coming season, according to local dealers.

United Picture Stock.

J. A. Hertz, president of the United Picture Theaters of America, Inc., coincidental with his arrival in Los Angeles, received a wire from New York stating that the common stock of the United Pictures Production Company had been placed on the New York curb market Thursday, opening at 11 1/2, and that the stock had steadily risen until it reached 15 1/2. The United Pictures Production Company was organized through the United Picture Theaters of America, Inc., to exhibit members.

Dock Company Stock.

CHICAGO, Sept. 24.—Stock of the Great Lakes Dock and Dock Company to the amount of \$24,000, was admitted to trading on the Chicago stock exchange today on the regular list. The initial sale was at 40 and a second sale took place at 50, but both were small. A Thompson broker had a sale of 40 and 41 and closed with a gain of 10 cents for the day.

Great Sacrifice for Cash Only

SIGNS like this mean little to the man without money. But to the person with available cash, they spell Opportunity.

The man with money in the bank has every advantage when it comes to buying. Profitable investments, good values in property, chances to buy into a growing business or to start a paying one himself—these he can grasp because he has ready money.

Systematic saving is the secret of most men's preparation for money-making opportunities. Are you ready for them?

THREE FACTIONS OPPOSE TREATY.

World Peace is Blocked by Many Reactionaries.

American Senators, French Deputies Play Politics.

Italian Hotheads Preventing Calm Discussion.

BY HENRY WALSH.

PARIS, Sept. 25.—Ratification of the German treaty and actually placing the world upon a peace basis are becoming doubtful, with Italy trembling on the verge of revolution and France torn by internal politics.

Under the treaty terms three of the five great powers must ratify to make the treaty effective.

Great Britain alone has done so. The United States is in the throes of a Senate fight and may not ratify before the end of November, according to the best Crillon opinion now.

President Wilson's efforts are in a measure nullified through the turn of events in France and Italy.

The President has been urging the Senate not to hold up world peace by refusing to ratify. But here in Paris one sees the French Chamber of Deputies today trying every dodge and every political trick known in Washington to delay or prevent ratification while they angle for a chance to get Clemenceau's seat.

Italy had been expected to ratify quickly, but with D'Annunzio's "Pia" campaign stirring the hot-blooded Latins to the boiling point and the crown council called, it is admitted at the headquarters of the Italian peace delegation that neither Nitti nor Tittoni will dare to bring up the German treaty or any Fiume settlement proposed until the danger of open revolution is averted.

Thus Japan remains the only great power which may be expected to ratify soon and they are holding off under the Shantung criticism in the hopes of getting more cards in their hands to trade with the big powers.

Meanwhile Germany is watching the game closely and Premier Paderewski, of Poland, told the council of five yesterday that 800,000 German soldiers still are under arms.

CLEMENCEAU'S MESSAGE. [RECEIVED DISPATCH.] PARIS, Sept. 25.—Speaking in the Chamber of Deputies today on the German peace treaty, Premier Clemenceau said that if he had any word to send the United States Senate it would be that he hurries the ratification of the treaty.

Alluding to the entry of the United States into the war, the Premier said that France might count upon America in time of peace as well as in war.

Replying to criticisms of the treaty, M. Clemenceau said the League of Nations was not as perfect as President Wilson would have it, but that it was the best that could be made.

The Premier spoke a little more than two hours. He held the close attention of the Chamber except for brief but violent interruptions by the socialists. His principal arguments in reply to critics of the treaty were that France was only one of four great powers that had won the war, and that therefore, it could not expect a distinctly French peace. These powers had to make peace together, as they had made war, he said.

LOS ANGELES TALK ON JOHNSON TOUR.

WASHINGTON, Sept. 25.—Senator Johnson's reconstructed speaking tour, which is to begin at San Francisco, announcement of which was made today, is to include Los Angeles, San Diego is to be visited next, and then will follow a dash northward through California and into Oregon and Washington.

Despondency. Sufferers from indigestion are apt to become discouraged and feel that complete recovery is not to be hoped for. No one could make a greater mistake. Hundreds have been permanently cured by taking Chamberlain's Tablets and can now eat anything that they crave. These tablets strengthen the stomach and enable it to perform its functions naturally. If you have not tried them do so at once. [Advertisement.]

Josef Hofmann---

is universally regarded as one of the world's greatest pianists. Many people feel that Hofmann has no equal. Paderewski is another—Gablilowitch, Harold Bauer, Rudolph Ganz—the list is long, indeed, of great pianists who have contracted to record their playing exclusively for

The Duo-Art, in addition to being the only real reproducing piano, is a wonderful player-piano and a regular piano of exceptional tone and action.

The World-Renowned
DUO-ART
Reproducing Piano

The Duo-Art offers such wonderful possibilities for entertainment and education at such comparatively small cost—the opportunity of having the world's great artists of the piano at your beck and call. It records their playing with absolute accuracy—even to their very finest tone shadings and most intricate technique—actually reflecting their personality. It is made in the Steinway, Steck, Wheelock, Broad and famous Weber models. Foot blown Duo-Arts range from \$350 to \$3475—electrically propelled from \$1145 to \$4000. Very liberal terms.

A "Good Night" Massage

—With the famous Owl Theatrical Cold Cream—

Means a Clear Skin in the Morning

That's the secret of many complexions you have admired. Applied with a gentle massage, this perfect cream thoroughly cleanses the pores. At the same time it soothes and softens the skin. By this simple method thousands of women retain their youth-time complexion.

Owl Theatrical Cold Cream is perfectly pure and, as a result, the last bit is as fresh and sweet as the first you take from the tin.

After a day in the open this bit of attention is doubly necessary. The effects of sun or wind are quickly erased and the burning sensation allayed.

ASK JOHNSON TO ADROP OPPOSITION

Occidental College Faculty Say Ratify at Once in Telegram to Senator.

Stating that the entire faculty of Occidental College favors the immediate ratification of the peace treaty as it stands now, Dr. Silas Evans, president of the college, yesterday sent a telegram to Senator Johnson on behalf of the faculty asking him to cease his opposition to its ratification. The telegram read:

Sir: The entire faculty of Occidental College appeals to you to cease opposition to the treaty of peace and the League of Nations. We believe that the language of the covenant is plain, that interpretative reservations are unnecessary and that reservations and amendments, contrary to its terms, are impossible. We favor the immediate ratification of the instrument as it stands.

The telegram is signed by Dr. Evans and Dr. Elbert E. Chandler, secretary of the college.

RECRUITING RELIEVES SHORTAGE OF SAILORS.

[RECEIVED DISPATCH.] VALLEJO, Sept. 25.—Shortage of men in the Pacific Fleet is expected by naval officials to be relieved by recruiting which has resulted in an enrollment of 2400 in the training station here. Daily arrivals of men average thirty-five.

The steam yacht Venetia, commanded by the government from John D. Spreckels of San Francisco at the outbreak of the war, was returned to him today. The Venetia was the only vessel, as far as is known here, from Mare Island, to be officially credited with the sinking of a submarine. The Venetia bears a star on its smokestack in recognition of its destruction of an undersea boat.

Authority was received at the navy yard today for the erection of an additional radio station, to cost \$150,000.

The supply ship Glacier received orders today to leave Mare Island October 1 for San Pedro with stores for the Pacific Fleet rendezvous there. The Glacier will return here later for repairs.

GERMANS TRY TO BUY FOOD FROM AMERICANS

[RECEIVED DISPATCH.] BERLIN, Sept. 25.—Through American business men now in Berlin the German government is trying to buy another \$1,000,000 in foodstuffs in the United States. The

ITALIAN GRABS SPREADING

Emulating Example of D'Annunzio, Others
March on Adriatic Coast Cities.

(Continued from First Page.)

Italy, its local commerce and local passenger service. At the same time, this solution would place under Italian sovereignty the greater part of the city and territory of Fiume, thereby largely satisfying Italian aspirations.

Many diplomats in Paris now regard the D'Annunzio affair as an open revolution which is not confined to the city of Fiume itself, but is gaining supporters all over Italy.

The refusal by the President to sanction the latest proposals for a settlement of the matter unquestionably will precipitate a Cabinet crisis in Italy and the present government probably will fall.

Capt. D'Annunzio has announced that the conditions under which he will capitulate are the annexation of Fiume by Italy and the resignation of Premier Francesco Nitti.

POLK IS IN CHARGE.
(EXCLUSIVE DISPATCH.)

WASHINGTON, Sept. 25.—It was said at the State Department today that Undersecretary of State Polk, as head of the American peace delegation in Paris, is handling the country's interests in respect to Fiume, and officials declined to make any statement regarding the situation created by the occupation of that city by military forces under Gabriele D'Annunzio.

It is recognized here that the problem is most delicate and that it is extremely difficult for the Italian government to solve it. It is known that for the time being the government has taken an attitude similar to that taken by the British and French governments, which view the actions of D'Annunzio as constituting an "internal" problem for Italy.

The proposal of the powers for a settlement of the Adriatic question, which would treat Fiume into an independent state and make the harbor an open port under the League of Nations, has been in President Wilson's hands for a week. But there has been no sure indication here that he plans action on it.

IN LEAGUE PLAN.
According to correspondence from Paris, the proposal provides for the administration of the port of Fiume by the League of Nations and the interests of the south Slavs, and it is said that the memorandum on Fiume, which is now being considered by the President, contains the following:

"The entire work of transportation for the hinterland (which was carried out in the past in the so-called free port and in the port of Barrow, with its wood deposits both fitted out with the necessary plants and railways.

"By the Italian position of the two districts to the League of Nations these transportation facilities could be administered by the league, an organization whose administration would offer every guarantee of impartiality and permanence for the hinterland."

ITALY GETS PORT.
The remaining small portion of the port would remain to Italy as a national Italian port and would serve the immediate interests of the hinterland.

**a trust
for your children**

Experience has abundantly proved that trusts for children are very wise arrangements.

Few young people are competent to take care of property or money which they have not acquired by their own efforts.

Title Insurance and Trust Company is today acting in the capacity of Trustee for many estates of which children are the sole beneficiaries.

In some instances the income is to be paid to these children until they reach an age when it is thought proper to turn over to them the principal.

In other instances the estate is to be held in trust during the entire lives of the beneficiaries.

We will be glad to explain thoroughly the many advantages of a trust for children.

SUGAR SHORTAGE

IS THREATENED

Government Urged to Take
the Crop at Once.Cuban Crop Next Year may
All be Taken by Europe.America's Supply Inadequate
for Requirements.

(BY A. P. MONT WIRE.)
CHICAGO, Sept. 25.—Temporary relief from the sugar shortage, which has resulted in retailers limiting customers in some instances to one pound at a time in light with the coming on the market of the western beet sugar crop, according to Henry H. Rolapp, chairman of the Food Administration's Sugar Distribution Board, is not likely to be secured until the United States Sugar Manufacturers' Association, which met today at St. Louis.

"Rationing" could be eliminated by November 15, he believed. The government took the further action to control the sugar market next year might save this year probably would be accumulated next year, he said.

ASKS PALMER TO ACT.
While the manufacturers were in session, United States District Attorney Charles F. Clyne telegraphed Atty.-Gen. Palmer, urging that he endeavor to have the Sugar Equalization Board take charge of the 1918 sugar crop at once. A serious shortage is threatened unless some action be taken, Mr. Clyne said, with refineries planning to export large quantities.

Mr. Clyne says the new crop of sugar has not yet been purchased by the United States Sugar Equalization Board, and that the Cuban sugar was being bought in foreign markets at a figure higher than that offered by the board in the past.

Mr. Clyne declared unless the price of sugar refineries is not controlled, the new crop will be exported in great quantities and there will be a shortage in this country.

CAUTION OF SHORTAGE.
Mr. Rolapp pointed to the world shortage caused by the war which stopped production in the best-sugar areas of Europe as the prime cause of the present shortage.

Fewer than fifty of the 300 French refineries operating at the beginning of the war remained, he said. Much of America's sugar came from Russia through German exporters, he added.

The shortage was tied up by the war, so that Java accumulated more than a million tons of sugar, but this went to America and Europe changed from a producer to a consumer, would be dependent on the Cuban crop, Mr. Rolapp said.

The American condition also was made worse by the recent strike of longshoremen in New York, which cut off the direct access to Cuban stocks, and by the California railroad strike, which held back sugar from the west.

CONSUMPTION INCREASES.
In addition to curtailed supplies, Mr. Rolapp asserted, consumption of sugar in the United States had shown a pronounced increase this year. Last year the consumption was 76.71 pounds for each person, while the consumption for the first six months of the present year to July had been at the rate of 108.54 pounds to the person. In July, when the consumption was on the consumption, it was at the rate of 120.72 pounds to a person. Prohibition was believed to have increased sugar consumption, although no statistical proof of this was available, it was said.

Next year when the big Cuban crop, which constituted the whole world situation, was ready for market, it would, in the opinion of Mr. Rolapp, go to the European countries already accustomed to paying high prices, unless American buyers meet those prices. The result would be that America would be thrown back on her own altogether inadequate domestic production.

In the face of this situation, he thought sugar prices would go to heights difficult to predict.

Mr. Rolapp believed the government should endeavor to purchase the 1930 Cuban crop, making provision for the protection of domestic growers and thereby fair price to the ultimate consumer.

SEEK RATE CHANGES.
Los Angeles Cotton Men Ask that "In Transit" Rule Apply Here.

(BY A. P. MONT WIRE.)
SAN FRANCISCO, Sept. 25.—Twelve cotton merchants from Los Angeles and vicinity and others interested in the cotton-growing industry in the Palo Verde and Hythe valleys of southeastern California, appeared here today before the San Francisco Freight Rate Committee in the interest of better freight rates.

They asked that cotton in flat bales sent from Southern California to Los Angeles and San Pedro be compressed into high density bales and then sent from the compressing point to eastern cities by given the advantages of "in transit" rates. It was explained that "in transit" rates applied to a shipment from the time it left the point of origin to the time it reached its final destination. The request of the cotton growers and shippers was taken under advisement by the committee.

GAMES ARE OFF.
(BY A. P. MONT WIRE.)
NEW YORK, Sept. 25.—The proposed post-season baseball schedule between the New York National and American League clubs has been declared off. It was learned today, President Steinbrenner of the Giants expressed the opinion that there was little public demand for the games.

The Best Advertisement.
The best advertisement any merchant can have is a satisfied customer. No greater recommendation can be given an article than the following by E. B. Milburn, Prop. Guion Drug Store, Guion, Ark. "We have sold Chamberlain's Cough Remedy for years and have always found that it gives perfect satisfaction."

"David Wark Griffith again demonstrates with 'Broken Blossoms' his leadership in the motion-picture field," said F. Chronicle. — (Advertisement.)

LOS ANGELES

FRIDAY MORNING, SEPTEMBER 26, 1919.—PART II.—10 PAGES.

POPULATION | By the Federal Census (1910) 312,332
By the City Director (1916) 397,000

Remarkable Night Photograph of the Forest Fire's Heart, Made by a "Times" Photographer at the Risk of His Life.

(A) Little Dalton Canyon, (B) Big Dalton Canyon, (C) Fire Burning Over Ridge of Pine Canyon, (D) San Dimas Canyon, (E) Backfire in San Dimas Canyon, (F) West Fork and San Dimas Canyon. Photograph was taken about midnight Wednesday by F. M. Litchfield, "Times" staff photographer, from the high ridge on the south side of Wolfkill Canyon looking directly into the main seat of the present fire. On his way to the perilous and difficult point of vantage a huge boulder rolled down from the hillside, partially demolishing Mr. Litchfield's automobile and narrowly missing him.

FIRE HALTED ON ALL FRONTS.

Gabriel Blaze Cornered in San Dimas Canyon and Will be Under Control Today, Rangers Believe; San Bernardino Forest Resorts Saved.

At about midnight last night the great forest fire that has been burning continuously for the past three days in the Angeles National Forest was definitely checked on all fronts and it is expected that they will be under control today.

The fire around the north and east wings of the San Dimas Canyon, which was the most serious threat to the resorts along the crest, was held back by a large force of fire-fighters. The fire was held back by a large force of fire-fighters. The fire was held back by a large force of fire-fighters.

The first serious injury to a fire-fighter to be reported came to William Spencer, 21, of Pomona, who was badly burned in the fire. The fire was held back by a large force of fire-fighters.

Under the lash of the wind, a new fire started in San Dimas Canyon last evening, but was held back by the fire-fighters before it could spread to the eastern ridge. The fire was held back by a large force of fire-fighters.

There are now about 1000 men at work in this district alone, under Lieut. Kelly. One group is at Brown's Flat, one in Cow Canyon, one in the upper San Antonio and the fourth on the east ridge of San Dimas. They are recruited from the groves, packing-houses, fumigating crews, schools and schools of Pomona, Covina, Glendora, San Dimas and all adjacent towns.

Last night, following the return of Supervisor R. H. Charlton from an airplane trip, covering the entire burned and threatened area, and after a conference with Forest Ranger Coast Du Bois, it was agreed that unless the unexpected happened—a failure to hold the fire in San Dimas Canyon—there was an end of all imminent danger.

One hundred and twenty-five men at the Arcadia Balloon School volunteered yesterday. Fitted out with fire-fighting tools, they divided up and were sent to the two points of indicated possible danger. They are the second Arcadia contingent sent to the fire line by Map Bamberger.

For the convenience of Supervisor Charlton an airplane has been stationed at Arcadia, brought over from March Field, Riverside, Maj. Young of the Riverside station has given generous and well-directed support and assistance.

District Forester Coast Du Bois, in general charge of the national reserves in California, accompanied by Tom Sloan, of the Pasadena district, arrived from San Francisco yesterday morning, and Du Bois at once assumed personal charge of the fire-fighters. After a careful survey of the situation, Du Bois and Sloan, both veteran fire-fighters, returned to the fire line.

(Continued on Tenth Page.)

FOUR-STRIPES ARRIVE TODAY.

First Division Veterans on Way to be Discharged at San Francisco.

The first "four-stripes" to arrive on the Coast, soldiers of the First Division, will pass through Los Angeles at 1 o'clock this morning over the Southern Pacific. The First Division veterans, most of whom have served two years overseas, will arrive 650 strong in two special trains that are now en route from the East via El Paso. They are on their way to the Presidio at San Francisco for discharge.

Many of these men were in the first contingents of American soldiers that landed in France, more than two years ago, and took part in the fiercest fighting by American troops in the war.

ENTIRE COURT FALLS INTO LAW'S CLUTCH.

MONROVIA DEPUTY MARSHAL ARRESTS JUDGE HEWITT AND OFFICIALS.

Deputy Marshal Johnson of Monrovia established a precedent in the annals of this county yesterday when he arrested Judge Leslie R. Hewitt, attorneys Moe M. Vogel and Lee V. Hood, Court Reporter Charles Magee and Bailiff J. J. Henry for obstructing the highway. They were ordered to appear before the justice of the peace in Monrovia at 10 a.m. tomorrow.

Judge Hewitt went to Spanish Canyon to hold court. He took the position of Thomas Patton, a witness who was sick in bed. The judge and attorneys left the automobile in which they had journeyed to the canyon on the side of the road and proceeded on foot to the land involved in the suit of Joseph Thompson and A. Foster against W. G. Hoffman.

Deputy City Marshal spotted the automobile, followed the trail left by the court, laid his official hands on Judge Hewitt, whom he did not know, and said:

"You are under arrest for obstructing the highway."

The judge smiled, but made no reply.

TO DISCUSS COUNTY CLERK APPOINTMENT.

COMMISSIONERS WILL TAKE UP PROBLEM OF RE-MARKING CANDIDATES TODAY.

The Civil Service Commissioners are expected at their meeting today to pass on the candidates for County Clerk. So many appeals came in that the papers had to be re-marked. Capt. W. L. Clark led the list at the first marking. L. E. Lampton, cashier of the County Clerk's department, was second and Charles Crawford, third. Capt. Clark was eliminated when Judge Myers denied his petition for a writ of mandate compelling the Civil Service Commissioners to certify him to the Supervisors.

PLAN FOR HUGE FACTORY HERE.

Coming of Great Tire Plant Hangs on Annexation.

Plans to bring to Los Angeles another immense rubber tire factory, approximately as large as the \$12,000,000 plant now being erected at Acot Park, were outlined yesterday by G. Gordon Whitnall, secretary of the Annexation Commission of Los Angeles, at a meeting in the interest of the proposed \$12,000,000 hotel to be erected at Wilshire boulevard and Ocean avenue, Santa Monica. Mr. Whitnall said the coming of the big factory to this community depends on the success of a movement recently begun to annex to the city an area of about four square miles, south of Watts and west of the "Shoestring" strip.

This territory, he explained, includes virtually all the district known as South Los Angeles. The petition for annexation, he added, is now in circulation. The heads of this tire factory, according to Mr. Whitnall, are impressed with Los Angeles' water supply and therefore want their factory inside the city limits.

Mr. Whitnall was one of the speakers at a meeting of the Santa Monica Beach Association, that is now raising among the people of the seaside community the \$250,000 still needed for the proposed hotel. Other speakers were Sir James Arbuckle, formerly Spanish Consul General at St. Louis and head of the Latin-American Association; Arthur C. Verge, a local attorney, and Dr. Otto J. Monson.

This proposed hotel would be a wonderfully profitable enterprise, declared Sir James Arbuckle, "and the people of Santa Monica should rise to the occasion and complete the hotel. The investment possibilities of this country are truly wonderful. Within five years we will see the flag of all nations flying in the Los Angeles Harbor, so rapidly is the city growing in commercial importance."

Dr. Monson, a former resident of Salt Lake City, declared the natural advantages of Santa Monica as a resort. "You need conditions at Santa Monica that will make the new comer comfortable," said Dr. Monson. "This must be done through the erection of a modern hotel."

H. L. Hall, secretary of the beach association, said construction of the hotel will start as soon as the \$250,000 now being sought at Santa Monica has been raised.

LAPIQUE'S STILL IN.

Perpetual Litigant Loses Habeas Corpus Appeal; Goes to Jail.

John Lapique, the so-called perpetual litigant, is still on the inside of the County Jail looking out, as Division No. 1, District Court of Appeals, yesterday denied his petition for a writ of habeas corpus and remanded to the custody of Sheriff Cline. Lapique presented his petition in person, being accompanied by Deputy Sheriff Cochran. Lapique was indicted May 14, by the county grand jury, charged with preparing false evidence in the case of John Lapique, successor in interest, etc., against Frank E. Walsh, Leutenant Etchepare, deceased. On August 14, Lapique argued a motion for a writ of habeas corpus before Superior Judge Willis, and his prayer was denied. He then took an appeal to the District Court, and it was disposed of yesterday by Judges James and Shaw, Judge Conroy being out of the city on his annual vacation.

"CUT WIFE INTO LITTLE PIECES!"

Weird Threats Charged to Don in Divorce Court.

Said He had Divine Right Over Her, but Losses.

"I know more about explosives than the Kaiser. I know enough to blow up the entire world. I know enough to kill anybody that I want to without them knowing anything about it. I will cut my wife into little pieces."

Mrs. Emma L. Waters, aunt of Mrs. Phyllis De Barbadillo, who was seeking a divorce from Gabriel De Barbadillo in Judge Craff's court yesterday, asserted that her husband made these statements to her while he was at her home, visiting his daughter, Mary, 4 years of age.

"That is not true," "Your Honor," I swear it," exclaimed the defendant from his seat at the lawyers' table.

The divorce was the end of a romance that began in San Diego ten years ago. Mrs. De Barbadillo, 19, became acquainted with the handsome senior. He was a vocal teacher, and told her, he said, of his fine family connections in Mexico, praised her voice and promised to make a prima donna of her. He said her ardent court although many years her senior—he admitted—on the stand he is 60 years old—and she married him, against the wishes of her relatives. March 10, 1916. The separation occurred February 28, 1917. Since that time, Mrs. De Barbadillo testified, she received no support from her husband, who went to Mexico.

LOVE AND DIVINE RIGHT. "She took my heart and my child without saying goodby," declared Senior Barbadillo. "I have been saving money for her and the baby. When she left me I went to Mexico. I sent her a bundle of flowers. I said to her: 'Come, dearie, to Mexico, where you will have servants, a fine house and nice things.' She would not go. She said: 'I don't want to live with you.' I have control of her by love and divine right."

During their early married life they lived in New York. Mrs. De Barbadillo said her husband would not work because of his pride. He lived in a dark room and Mrs. De Barbadillo sewed and did other work, she testified.

"I would take my money to him to pay the expenses of the house," she said. "One day, he said, 'I don't want your money.' 'She did put her money nicely in my hand,' he retorted from the stand. 'It was soiled, and laughingly I did say, 'I don't want this dirty money.' I cooked and washed the dishes. I washed her feet. I cleaned her nails. I dressed her hair.'"

Miss Waters, who is a wealthy woman, owner of many cottages in Bear Valley and the Great Taxi and Limousine Company, gave Mrs. Barbadillo and her daughter a home after the break-up. Senior Barbadillo, returning from Mexico, gave vocal lessons in this city, and called at the house to see his child. "He was obnoxious to me," said Miss Waters. "He did not come to see the child, but his wife. He made little Mary cry. He would hold his face down to hers for so long a time that she cried."

OFFERS COURT SAMPLE. "I did ask if she loved me," declared Senior De Barbadillo; "a natural question, and her aunt cried out: 'What a silly thing to say to a child.'"

Attorney Duke Stone, counsel for Mrs. De Barbadillo, asked the defendant if she refused to go to when your wife secured employment.

McADOO FOR LEAGUE PACT.

Former Secretary of the Treasury Issues Strong Statement Here.

Former Secretary of the Treasury William G. McAdoo, at a private luncheon tendered him, yesterday, at the Los Angeles Athletic Club, made an address at which he pointed out the compelling and unanswerable arguments as to why the League of Nations covenant should be stamped with the seal of approval of the United States.

"First of all," said Mr. McAdoo, "the covenant is founded on right. Its purpose is to make wars impossible. For this reason, every right-thinking man and woman in America is for the League of Nations. Now suppose the United States does not ratify the covenant. What happens? We must make a separate peace with Germany. Is this not an unthinkable desertion of our Allies? Would it not be a big sense, a triumph for Germany? Suppose the United States stands cut alone and apart. It means that at once every nation must prepare for war, and thus add enormously to the terrible burden of taxation necessary to repair the damage of the last war. Can the United States afford to take the responsibility for the failure of a League of Nations to prevent wars, and thus plunge the world anew into war preparations and stop the necessary work of reconstruction? I am sure that you will agree with me that the United States, both from the standpoint of world business, as well as world morality, must endorse the covenant."

THE GUESTS. The luncheon was given to Mr. McAdoo by Irvin J. Munna, and among those present, all of them prominent local supporters of the League of Nations, were Marshall Stinson, Nicholas Millbank, Collector of Internal Revenue Carter, Col. Charles F. Hutchinson, Mayor Snyder, leaders R. Dockweiler, Federal Judge Trippe, Edward A. Dickson, Harry Chandler and Dist. Atty. Woolfson.

The purpose of the luncheon was to enable Mr. McAdoo to meet a number of prominent Los Angeles supporters of the league to discuss ways and means of forwarding the campaign in support of the treaty.

tive of the Republican leaders.

our universities, the brilliancy of our scholars and investigators, the advanced character of our industrial life. Their successors will surely have a different tale to tell. It is to be hoped that this fine work of sympathetic training, this wonderful opportunity for molding the life of a sister nation, will not be imperilled or impeded by narrow prejudice and political squabbling. Japan in the League of Nations will be a really progressive Japan. To make her an enemy, by reckless insults, is the worst kind of policy.

BEYOND COMMERCIALISM. Surely the statement of a San Diego minister to the effect that the clergymen of that city contemplate joining the ranks of organized labor and affiliating with the American Federation of Labor is not to be taken seriously? The ministers are making an effort to become better acquainted with all laborers, everywhere, which is commendable, but the argument that "the most practicable manner of accomplishing this purpose is for the preachers to become affiliated with the unions" is founded upon a false ideal. To lift up the weak one must be strong; to inform the ignorant one needs

to be wise; to reform the criminal the reformer must stand above him and not descend to associate with him and condone his crime.

Let not The Times be misunderstood. Doubtless the majority of the members of trades unions are honest, law-abiding citizens, else unionism could not hold the position it now commands among the various institutions allowed in free America. But the A. F. of L. as an organization, and many leaders of the unions of which, these

many leaders of the unions of which it is composed are false, "unfair." If you please, to the One Big Union organized in 1776. No further evidence of the truth of this statement is needed than in the threats against elected representatives of the people, made by Samel Gompers, head of the A. F. of L., during the recent Boston police strike when officers of the law, backed by the Gompers band, deserted their posts and betrayed the city to rape fiends, thugs and hoodlums. That the ministerial body of any city actually desires to affiliate with the mis-called "American" Federation of Labor, The Times refuses to believe.

A strike by an association of clergymen is unthinkable and impossible if the members of such an association remain true to their trust and their calling. Ministers of the gospel are paid for their work and should be even better remunerated than they are, for "the laborer is worthy of his hire," but no true servant of the Master will charge for his services by the hour or by the sermon, nor will he set a monetary valuation upon his services at a wedding, a christening or a funeral. Imagine a clergyman of any Christian denomination saying to a bereaved father or mother: "The

union scale of wages for officiating at the funeral of a child is \$10 and if you will not pay this, or are unable to pay it, you'll have to get a 'scab' preacher, for if I take the case I'll forfeit my union card." Such a thing is almost unimaginable, certainly ridiculous and altogether unbelievable. •

There are many things and many serv-

ices that are sellable and buyable. Even artists have been known to sell themselves, to compromise their ideals and to place a cash valuation upon their inspired works. However, there is one thing that can never be commercialized, even if all the preachers and priests on earth should form a combination and attempt to commercialize it, and that is the spirit of truth. Bibles may be printed and have a cash value; but "the gift of God, which is eternal life," can never be bought or sold.

CLIMATE NOTE.
Kansas City is conducting a municipal advertising campaign and one of the things being featured is the climate. Some folks would consider this a Missouri contribution to the World's Library of Wit and Humor. In winter Kansas City is too cold for polar bears and in summer it is too hot for horned toads. In the spring it is too wet for ducks and in the fall it is too dry for prohibitionists. The climate of Kansas City is a joke—everywhere but in Kansas City. —A. S. S.

...ly, there is a page. _____

This spirit of independence is but faintly reflected in Congress. There are many members who have been bluffed by the heat of the brotherhoods to make a personal campaign against every Congressman who votes against the Plumb plan. They are more concerned about their own immediate political future than the welfare of the country. These politicians should be exposed and lashed from the halls of Congress.

As soon as the armistice terms were settled last November the Belgians started an attempt to obtain these territories so important to them. King Albert frankly stated in a speech from the throne that the old treaty of 1839, "which recognized Belgium," was now a dead letter. The Dutch, of course, are strenuously opposed to giving up any territory and hint that if the Peace Conference should support Belgium's claims they would feel so embittered that they might turn their eyes toward the German republic. It will require the soundest judgment and the most careful guidance to prevent the questions which have arisen between the two parts of old Netherlands from making serious

AGED WOMAN BADLY HURT.

Thrown from her automobile when she drove full into the side of another car at Wilshire boulevard and Western avenue, yesterday, Mrs. Winnie K. Dodge, 52 years of age, of 959 North Kings drive, West Hollywood, received injuries that, according to surgeons at the Receiving Hospital, may prove fatal. Mr. Dodge, who was also in the automobile, escaped injury, while James O'Neill, 45 years of age, of 1703 South Grand avenue, the driver of the second car, was painfully lacerated about the left arm by flying glass.

FOIL PLOT TO SEIZE COIN.

What is believed to have been a carefully laid plot to rob the paymaster of the Soldiers' Home of a large sum of money, said to be over \$100,000, as he left the First National Bank of this city, was frustrated yesterday by deputy sheriffs, federal secret service agents and local police.

NOW MAY LIBEL IT.

City's Troublesome Fire Boat is in the Spotlight Again.

City of Los Angeles' Fire Boat No. 1, which President Workman of the Council, at yesterday's session, declared was like a ghost that always put in an appearance at unexpected times, may be libeled or attacked, or whatever other legal process is necessary, that the Union Gas Engine Company may get pay for machinery it has furnished for the boat. Information to this effect was given to the Council yesterday and the matter was referred to the City Attorney.

HAS HOUSEKEEPER, SO MUST HELP CHILDREN.

Declaring that if Homer E. Callahan, an engineer, could afford to employ a housekeeper for himself, he should be forced to pay for the support of his children, Judge Craft yesterday held him to answer on a failure-to-provide charge. Mrs. Maud Callahan, the wife, is suing for divorce. Della Rogers, the housekeeper, was in court and admitted while she was living in Mr. Callahan's apartment she said they occupied separate rooms.

MILLIONS PAID OUT AT HARBOR.

Startling Figures Submitted at Leasehold Hearing.

Shipbuilding Concern Exceeds City Requirements.

Even Strikers Admit Large Force is Now Employed.

An interesting array of figures regarding the expenditures for wages and outlays for equipment of the Los Angeles Dry Dock and Shipbuilding Company was presented yesterday by Attorney Samuel M. Haskins, at a hearing in the Council chamber on the proposal of D. J. Anderson, said to represent the shipyard strikers, that the city cancel the lease on municipal land held by the company.

WORLD MOVES FORWARD WITH LONG STRIDES.

Peace Has Its Victories No Less Than War—Science Reels Calomel of Its Nauseating Qualities. "Calomel" the New Name.

Here is good news for the sixteen hundred millions of people in the world who have lives to be cleaned. Science has found a way to clean the world. Calomel, the most successful liver medicine, has been robbed of its griping and nauseating effects. Calomel, the new name, makes calomel-taking a real pleasure.

CUTICURA HEALS BLISTERS ON FACE.

Very Disfiguring. Caused Swelling and Itching. Could Not Sleep.

"About four weeks after having a very bad case of poison ivy, my face broke out in water blisters about the size of a pinhead. They were very disfiguring as they caused swelling and itching, and I could not sleep at all. My face would swell so that I could not see my eyes, and I had to have a towel on my face. I was treated but got no relief. Then I was told to use Cuticura Soap and Ointment. In about a week I could see a change, and in three weeks I was completely healed." (Signed) Mrs. C. Anderson, Knit, Knit, March 21, 1918.

Don't let skin trouble spoil your good time

Resinol

heals sick skins

"I can't have any fun! I am such a sick with this eczema that people avoid me wherever I go. And the itching torments me so that I don't get any peace, anyhow."

Don't be discouraged! Even in severe, well-established cases of eczema, ringworm or similar skin troubles, Resinol Ointment, aided by Resinol Soap, usually relieves the itching at once and quickly clears the eruption away.

Doctors prescribe the Resinol treatment. All drug stores sell Resinol Ointment and Resinol Soap.

WHOLESALE CAR THEFTS BY BOY.

Fifteen-Year-Old Confesses to Remarkable Deeds.

Took New Automobiles from Same Spot Repeatedly.

Leaving Home, Eludes Police for Ten Lurid Days.

After having run away from his home, stolen over \$25,000 worth of automobiles and evaded the police for ten days, Don Clauser, 15 years of age, son of C. F. Clauser, 1343 South Flower street, was arrested late yesterday afternoon when he was caught in the act of starting an automobile at Fourth and Olive streets. Young Clauser was taken into custody by J. E. Clark and A. J. Ross, investigators for the Pacific Coast Auto Underwriters' Conference.

Following his arrest, the youth made a complete confession to Police Detectives Rhy and Hurt, and told of leaving his home about ten days ago and at once stealing an automobile. In the stolen machine the boy drove to Glendale and took a girl, whose name he refused to give the police, for a drive, and then, leaving to go home, abandoned the automobile on the street and walked to the home of a boy friend, where he remained for the night.

TAKES NEW CARS. Stealing an automobile, always a new machine, from a parking space at Fourth and Olive streets young Clauser found to be an easy job, and he said, he secured a new machine almost every day. Some of the stolen cars the boy kept two and three days, but he always abandoned them when the gasoline ran out. Several times he stripped the machines of extra tires and blankets and sold them at second-hand stores.

Warned that a thief was operating at Fourth and Olive streets by repeated reports the morning after the theft, the police and the underwriters' conference both placed guards on the corner, and yesterday Clauser was seen attempting to start several machines. As the boy wears short pants and looks to be only about 15 years of age, the guards warned him away from the automobile row several times before arresting him. When the youth was seen to climb into another machine and attempt to work the starter, he was arrested and when questioned at Central Police Station, he confessed.

Later, the police learned he is the much-wanted motorist who drove through Van Nuys late Wednesday evening in a high-powered machine and refused to stop when ordered to do so by several officers.

According to motorcycle officers who gave chase to the machine, the youth drove at a speed of seventy-two miles an hour and escaped.

After arriving in the city last night, Clauser stopped for Patrolman Tasker of the Hollywood police station, who flagged him on Hollywood boulevard, and drove the policeman to work.

When Mr. Clauser was informed that Don was under arrest, he told the police that the boy ran away from home ten days ago and had not been heard from until taken into custody.

The youth, following his confession, was turned over to the juvenile authorities and charged with grand larceny.

Automobiles owned by the following persons, all new machines and all left standing at Fourth and Olive streets, were stolen by young Clauser: Ira W. Burns, 1044 West Thirty-seventh street; E. E. Rose, 1829 Shatto street; E. E. Matheson, Vinalia; Dr. Sam Siegmund, Clara Barton Hospital. Two machines, the owners of which have not been found, were also taken by the boy.

FOR STEALING AUTO. For the theft of an automobile belonging to L. J. Turner of this city, Ralph Freese was sentenced yesterday to from one to fourteen years in San Quentin by Judge Craig. Freese pleaded guilty to the theft, which occurred on July 23.

PICTURE COSTS HER A HUSBAND.

Identified in Divorce Suit as Woman at Hotel with Another Man.

This is the photograph of Mrs. Grace Gibson, which cost her a husband yesterday. It was identified by witnesses in the divorce suit of George W. Gibson as that of a woman who, under another name, went to an apartment-house with another man.

Mr. Gibson charged his wife with misconduct with R. Hull. She did not appear in court, and he had recourse to her picture for identification purposes. The couple were married six years ago and separated last month. There are no children. Judge Craig granted the decree.

step when ordered to do so by several officers.

According to motorcycle officers who gave chase to the machine, the youth drove at a speed of seventy-two miles an hour and escaped.

PRICE OF BLACK EYES IS FIXED.

Mrs. Batte Pays Penalty for Batting Neighbor.

From What Court is Told it was a Fine Fight.

But it Cost Thirty "Plunks" and Visit to Jail.

It costs just \$30 in hard cash and one and one-half hours in the City Jail if you want to get into a free-for-all fight with your neighbor and give her two black eyes.

This price on shiners was set by Police Judge Hugh J. Crawford yesterday afternoon in University Police Court.

The penalty was paid by Mrs. Ethel E. Batte, 26 years of age, of 1808 South Burlington avenue, who, according to testimony given at the trial, is some battler.

And Mrs. Emma Beckman, also of 1808 South Burlington, says she is and offered her two blackened and bruised eyes to prove it.

From all the court was able to learn it was a fine fight. Every body seemed to enjoy it but Mrs. Beckman. She only lasted one round, although Mrs. Batte still had lots of pep at the finish.

A telephone, according to the testimony, was the prize for which the one-round affair was staged, the winner taking the telephone and the loser getting the black eyes.

It happened this way: Mrs. Emma Beckman lives with Mrs. Mable Gaskill in an apartment at 1808 South Burlington avenue. Mrs. Ethel Batte lives in another apartment at the same address.

Mrs. Batte and Mrs. Gaskill have a telephone which they use in common and split the bill.

Mrs. Beckman received a telephone call on the community telephone and attempted to answer it.

Mrs. Batte objected to Mrs. Beckman using the telephone, on the ground that she did not pay part of the bill.

The fight was on. Mrs. Batte won.

Then, arrest.

And yesterday afternoon Mrs. Batte sat for one and one-half hours in the University Police Station Jail and then had to pay \$30 to help keep the city tagging along.

TO LAUNCH SHIP.

Southwestern's Twelfth Ocean-going Vessel to be Christened Sunday.

The West Niger, an 8500-ton ship under construction at Los Angeles Harbor by the Southwestern Shipbuilding Company, is to be launched next Sunday morning at 11:30 o'clock, according to information given out by the company officials.

As the big vessel slides down the ways it will be christened by a Los Angeles musician.

The West Niger is the twelfth ocean-going vessel to be launched by the Southwestern Shipbuilding Company.

CONFESS BURGLARY.

Boys Break into Unoccupied House, Get Portieres and Sell Them.

Two pairs of portieres valued at more than \$500 yesterday landed Emory P. Eckley, 18 years old, of 1021 Fifth avenue, and Hugh Montgomery, 20 years old, of 103 South Gramercy place, in the City Jail on charges of burglary. The two youths, according to Police Detectives Rowe and Taylor, who placed them under arrest at their homes, got the costly portieres from the home of J. I. Cusner, 2021 South Harvard boulevard, the boys confessed.

After looking over the Cusner home, which was advertised for rent, the two boys entered a window in the basement of the house and ransacked the place. They got the portieres and sold them to a dealer. With the recovery of the lost door, Detectives Rowe and Taylor traced the two youths to their homes and placed them under arrest.

SEWER AND STREET WORK AUTHORIZED.

Authorization for the construction of sanitary sewers in the First and Berendo street-sewer district, under private contract, was given by the Council yesterday. It also adopted an ordinance abandoning proceedings for the improvement of Norton avenue, from Third street to Wilshire boulevard. Permission was given to property owners to construct sewers by private contract in the McKinley and Florence-avenue sewer district. The City Engineer was instructed to prepare plans, profiles and specifications for the improvement of Berendo street, from Eighth to Ninth streets. The final ordinance was passed yesterday for the vacation of portions of Winslow avenue and Crystal street.

INCORPORATIONS.

Western Realty Holding Company; incorporators, F. L. Werding, E. Blocker, C. L. Noble; capital stock, \$100,000; subscribed, \$100,000. Southern Oil and Gas Company; incorporators, C. F. Campbell, J. D. McCarthy, C. Henry Thompson, J. Y. Blakie, A. N. Wheelock; capital stock, \$1,000,000; subscribed, \$500,000. Progressive Motion-picture Company; incorporators, Norman D. Turner, W. D. Morgan, Frank A. Thorne; capital stock, \$100,000; subscribed, \$50,000.

STOLEN CLOTHES COSTLY.

Pleading guilty to stealing four silk shirts, valued at \$40, four suits of underwear, valued at \$20; six silk ties, valued at \$15, and other articles totaling \$175, Charles Fluere was sentenced yesterday by Judge Craig to from one year to fourteen in San Quentin. The articles were stolen from Richard Colwell, a musician, of South Broadway, on July 15.

WELCOME TO AVALON.

Mayor Rogers of Avalon yesterday sent by wireless to Secretary Parsons of the Federation of State Societies promises, hearty support and co-operation to make the coming series of State society excursions to the island resort a success. The first article was stolen from Richard Colwell, a musician, of South Broadway, on July 15.

WILL MAIL LOOT, HE TELEPHONES.

Burglar's Message to First News to Owner that Jewelry was Stolen.

"I just stole a lot of jewelry from your house. I am very sorry and will mail the loot to you at once. Please don't tell the police."

This was the startling piece of information received by E. C. Somerby of 924 Ramona avenue, yesterday afternoon when he answered a telephone ring.

According to Mr. Somerby's report made to the police after receiving the strange telephone message that he had been robbed, the thief called at his home yesterday while he was sleeping in a rear bedroom. When surprised in the house the burglar called Somerby by name and claimed to know his brother. He asked if the house was for rent and then departed. Mr. Somerby believing that the intruder had called to see his brother made no investigation and missed nothing until the burglar called him by telephone.

A search then showed about \$100 worth of jewelry missing.

VETERAN DIES AS HE GOES TO COMRADES.

FATHER-IN-LAW OF FRENO'S MAYOR STRICKEN WHILE GOING TO SAWTELLE.

Marion Ferrel, a Civil War Veteran, wanted to spend his last days with the "boys" at the Soldiers Home, but his wish was shattered last Wednesday when he died aboard a Southern Pacific train while on his way to Sawtelle.

Mr. Ferrel was 83 years old and a resident of Fresno, where he had lived for eighteen years. In the Civil War he fought with an Iowa volunteer regiment and recently learned that several of his old comrades were at the Soldiers Home in Sawtelle. He died of heart trouble while his son-in-law, Bert Maul, was accompanying him to Sawtelle. He is survived by three daughters, Mrs. W. S. Toomey, wife of the Mayor of Fresno; Mrs. Bert Maul, of Fresno; and Mrs. Mary J. Ferrel, of San Francisco, and a son, Arthur H. Ferrel, of Garbion, Ark.

WE CURE
Piles, Fistula
And All Rectal Diseases
WITHOUT AN OPERATION

For twenty-five years we have been curing diseases of the rectum and lower bowel. During that time our experience has enabled us to develop a method that is superior to others. We cure without surgery and our patients are not confined in bed and seldom lose a moment's time from their business.

Here are some of the persons who have been restored to a normal condition, and would not go back to the old life for any consideration:

A. D. Schindler, Brawley, Cal.
Virginia Linehan, 2235 E. Second St., Los Angeles, Cal.
Mrs. G. L. Cochran, Blythe, Cal.
R. A. Hemker, 644 Locust Ave., Long Beach, Cal.
C. J. Laughlin, 709 American Bank Bldg., Los Angeles, Cal.
L. Cunningham, St. Leonard Apartments, Los Angeles, Cal.

BOSTON WINS AND LOSES ONE.

Giants Make 24 Hits in the First Contest.

Cravath's Home Run Cops Game for Phillies.

Kruger of Brooklyn Has Big Batting Day.

(BY A. P. NIGHT WIRE.)
BOSTON, Sept. 25.—New York today defeated Boston, 14 to 1, today, in a game in which they made 34 hits for a total of forty bases, and then the Braves reversed the result in a second game, winning, 2 to 4. The Giants hit both Casey and McQuinn hard in the first game, while the Braves pounded Shover and Barnes in the second.

POMONA HIGH BEGINS WORK.
(Continued from First Page.)
team that will come from the two hard practice sessions, there should be no doubt but what Pomona will come out with the long end of the score.

Practice has started in earnest this week and the first time since the football warriors were called out there was practically a full squad including most of the old timers who did not report on the previous weeks. With about forty candidates to pick from and a squad containing some of the best players that have performed for Pomona, Coach Leonard will be able to frame up a team that should make any of the league members hustle.

PERIOD TO MILITARY.
Organization of the students corps of Pomona High will begin as soon as the schedule of physical training can be arranged. According to the system inaugurated last year there will be one period each week devoted to military training in which each boy in school will be required to take part. Coach Leonard as head of the department of physical education, will have charge of the corps, but it is expected that Harry Kirkpatrick who is the only commissioned man in connection with the school, will be the commandant of the corps. According to the plan which has been in force at the school, there are three periods of each week devoted to physical education, one of which is made up of drill.

TIME NOT SET.
At present, the time for this work has not been set and it will be a week or so before the organization of the corps will take place. A similar work for the girls will also be taken up under the direction of Alice R. Carter, the new director of physical education for the girls. There is an abundance of good equipment for a cadet corps, about 120 rifles having been secured last year together with several hundred rounds of ammunition. Three companies formed the corps last year and it is expected that there will be about the same number this year.

ANGELS WIN FIRST BY HITTING THE PILL.

SEATTLE (Wash.) Sept. 25.—Easily outitting the locals, the Los Angeles team took the first of its series with Seattle here today, 6 to 1. The game was devoid of features. The score:

Los Angeles	Seattle
1	0
2	0
3	0

DIEGEL IN LEAD.
(BY A. P. NIGHT WIRE.)
TOLEDO (O.) Sept. 25.—Leo Diegel of Detroit, with a total of 147 for the 34 holes, led the field of fifty-three professionals and amateurs who began the 72-hole competition at the Inverness Club today, for the Ohio open championship. Alex Ross, another Detroit, was but one stroke behind Diegel, with a 148 total. Walter Hagen, a third Detroit, and national open champion, and James Barnes of St. Louis, western open champion, were tied for third with 153 each.

SHADE TO MEET DANNY KRAMER
Lightweights in Feature Event at Long Beach.

Tonight's Card of Six Bouts Well Balanced.
Gene Watson to Hook up with Jack Oliver.

(LOCAL CORRESPONDENCE.)
LONG BEACH, Sept. 25.—Dave Shade, brother of Billy Shade, the San Francisco famous celebrity, will meet Danny Kramer of Los Angeles, premier Southern California lightweight, in the main event at the Silver Spray arena tonight.

Willie Hunsfeld, matchmaker of the Long Beach Athletic Club, had arranged a bout between Kramer and Francisco's famous celebrity, but the latter athlete suffered a slight injury during training at the last minute and it was necessary to secure a substitute.

DAVE IN THERE.
Young Dave Shade is said to have defeated everyone in the lightweight class around San Francisco and had decided to come down south in search of new worlds to conquer.

For the semi-finals not less important personages than Gene Watson and Jack Oliver have been signed to make things interesting for each other for four rounds. They will dip in the ring at 143 pounds.

The preliminaries include a meeting between Paul Brewster and "Philadelphia" Brown; Joe Burns and Joe Miller; Ted Levin and Joe Cappelli, and Johnny McManus and Mike Sotello.

POLY HIGH MEN GO THROUGH TRAINING.
COACH HENTSCHEKE CONFIDENT HE HAS GOOD MATERIAL THIS YEAR.

(SPECIAL CORRESPONDENCE.)
RIVERSIDE, Sept. 25.—Coach Armin Hentschke has been putting fifty Poly High men through some vigorous training since the opening of school Monday morning, and is already confident that he has material that will put the local team in the running for the citrus belt football pennant this year.

Among the most promising men are Ralph Cummings, half, on the line; Norman Dole, who is out for the key position with the regular this year; Roy Morris, one of last year's squad men who is playing in the backfield and "Buck" Crowell, who is trying out in the quarter-back position. A number of Sherman Indian stars, including Chico, captain of the Sherman institute team last year, are in training and are expected to give the team considerable strength.

BENGALS FIND GOULD EASY.
(Continued from First Page.)

the first-base line. Then Bobby Fisher, with base hits coming out all over his system, patted a double to right, scoring Chas.

THERE WITH NYTO.
Borton trundled a single to center, sending Bobby over the plate. Edgington then scored on a sacrifice fly. Then Babe Borton, for no cause whatever, deliberately stole second by hypnotizing Gould into a pillar of salt. High walked along the boulevard and a moment later Beck kicked one to right, scoring Borton. Brooks then ended the agony by shoving an easy one to Mulligan, who threw him out to Shashy.

After making two in the fifth, Bill Esack bent out the word that he wasn't satisfied and demanded three more runs. The boys, wishing to fulfill any desire that Bill might even hint at, went out in the eighth and garnered the full quota with consummate ease.

CRIED "TAKE IT."
The visitors took a whirl at the tallying game in the eighth but it "died a bornin'" and when they had put two over they graciously withdrew and shouted, "Take it."

Wisdom Row got very much hot up over one of Phil's decisions at first base. As Francis Patrick Shanley grand pandemonium of the row was about, shouting "Take it!" "Mulligan, Fred Stanton had the chair. Some days Fred looks like a regular inhabitant of mother earth but when he runs out for a few days on the tonorialists he can easily be mistaken for a Bolshevik.

THEY COULDN'T A MAN
The forest fire in the upper part of Los Angeles was thrown by Mrs. Switzer's today and was a very bad one. Mrs. Switzer is over 60 years old, and sustained several injuries which, it is feared, may prove fatal.

Today she was brought to the Hospital here, accompanied by her daughter, Miss Mary Switzer, and Curtis Switzer, who has been fighting the forest fire. Dr. Z. T. Manly, who is in charge of the hospital, said that the injured woman was in a very bad condition.

SELECTED NEWS
(BY A. P. NIGHT WIRE.)
NEW YORK, Sept. 25.—The Senate today passed a bill to amend the National Firearms Act, which will prohibit the sale of automatic weapons to anyone under 21 years of age. The bill also provides for the registration of all automatic weapons.
